

Quality Antibody Production Since 1960

Pocono Rabbit Farm & Laboratory, Inc.
666 Dutch Hill Road, PO Box 240, Canadensis, PA 18325
Phone: (800) 622-6381 Fax: (570) 595-9277 www.prfal.com

Quick Draw Protocol Order Form

Contact Name _____ PI Name _____

Please use one Quick Draw Polyclonal Antisera Request for each Antigen

- ____ Quick Draw Protocol 28 Day
- ____ Quick Draw Protocol 49 Day
- ____ Quick Draw Protocol 49 Day w/ Optional Production Bleed Extension (indicate number of extensions)

- ____ Peptide Selection / Synthesis / Conjugation (email protein sequence / specs. to antibody@prfal.com)
- ____ Peptide Synthesis / Conjugation (email peptide sequence to antibody@prfal.com or indicate in box)

For all peptides, 10 - 15mg of peptide will be synthesized at 80% purity, unless indicated below—

- ____ Increase peptide purity to 85%
- ____ Increase peptide purity to 90%
- ____ Increase peptide purity to 95%
- ____ Increase peptide supply to 15 - 20mg
- ____ Affinity Purification — 25ml sera
- ____ Affinity Purification — 50ml sera
- ____ Affinity Purification — 100ml sera

Special requests for peptide synthesis, purifications & ELISAs

- ____ ELISA for day 21 immune bleeds
- ____ ELISA for preimmune and day 21 immune bleeds

_____ Antigen Name — only the first 10 characters will appear on sera vials, reports, etc.

- ____ Number of Rabbits to be immunized
- ____ Number of Chickens to be immunized
- ____ Number of Sheep to be immunized
- ____ Number of Mice to be immunized
- ____ Number of Guinea Pigs to be immunized
- ____ Number of Goats to be immunized
- ____ Number of Rats to be immunized

If you are sending the antigen, amount of antigen sent _____mg

If you are sending the antigen in solution, indicate the concentration _____mg/ml

If you are sending the antigen, indicate any special preparation instructions on a separate sheet.

ASSURANCE STATEMENT PRF&L **must** have this signed assurance before initiating your project.

I give assurance that no biohazardous or radioactive materials, toxic, carcinogenic, infectious, or transmissible agents have been submitted to PRF&L for injection into animals. The animals injected are owned solely by PRF&L. However, all of the serum and products obtained from the animals will be the property of the undersigned (project sponsor). I assure that the information in this form is fully and accurately presented and that I have read and understood PRF&L's disclaimer (www.prfal.com/disclaimer.htm). The USDA and NIH require that assurance be given that this request does not unnecessarily duplicate previous experiments.

Signed _____

Date _____

Shipping - All sera and leftover peptide is shipped via Fedex Priority Overnight at the end of the Quick Draw Protocol, frozen on dry ice. Purified antibody is stored and shipped at 4 degrees C. Indicate any exception here:

- ____ Store & Ship Sera at 4 degrees C
- ____ Add 0.025% Sodium Azide to Sera
- ____ Send sera after each immune bleed
